CEMENT
AND
LIME MANUFACTURE

Published by Concrete Publications Ltd., 14 Dartmouth Street, London, S.W.1

INDEX to VOL. XII, 1939.

PAGE

Aspdin, Memorial to Joseph 22

AUTHORS:

Allin, R. V., on Measurement of shrinkage of concrete 168
Allin, R. V., on Placing concrete after the initial set of cement 5
Anderegg, F. O., on Developments during the year 1938 56
Ashkenazi, Dr. Gabriel A., on Special Portland cements 91
Bendy, W. R., on Economy of clinker cooling ... 201
Berchem, H., and H. E. Schwiete on Testing cement mortars for contraction 59
Bogue, R. H., on Constitution of Portland cement clinker 205, 230, 250
Catlin, A. W., and R. R. Mills on Slurry agitation 176
Eiger, Dr. Antoni, on Hydro-ferrites of lime ... 53
Fisk, H. G., Ph.D., on Refractories for cement kilns 257
Insley, H., E. P. Flint, E. S. Newman and J. A. Swenson on Composition of Portland cement and heat of solution of clinker 170
Jager, Dr. F., on Properties of cements and limes submitted to high pressures 1
Jennings, J. H., on Controlling the quality of clinker 47
Koeltzsch, Dr. R., on Temperatures and changes of material in the rotary kiln and the Lepol kiln 103
Kremer, F., on Magnesia bricks for lining cement kilns 223
Lea, Dr. F. C., on Comparative tests on the fineness of cements 150
Lea, Dr. F. C., on Solubility of cements 227
Meissner, H. S., and W. T. Moran on "Low-heat" cement in practice 198
Mills, R. R., and A. W. Catlin on Slurry agitation 176
Moran, W. T., and H. S. Meissner on "Low-heat" cement in practice 198
Naito, Ryuichi, and Taro Tanaka on Determination of the constitution of Portland cement clinker by the metallographic method... ... 64
Nordberg, B., on Economies in fine grinding ... 159
Nordberg, B., and R. S. Torgerson on Plant development in the United States 75
Platzmann, C. R., on Special cements 163
Pogany, Dr. B., on The causes of the bond between steel and concrete... 99
Reaser, W. E., on Control of combustion in the rotary kiln... 79
Schwiete, H. E., and H. Zur Straszen on Shrinkage and drying-out of cement 23
Schwiete, H. E., and H. Berchem on Testing cement mortars for contraction... 59

PAGE

Solacolu, Professor Serban, on Portland cements which are not seriously affected by large additions of water 115
Sparkes, F. W., on Crushing strength of cement... 4
Straszen, H. Zur, and H. E. Schwiete on Shrinkage and drying-out of cement 23
Swallow, J. C., on Measurement of gas temperature 106
Tanaka, Taro, and Ryuichi Naito on Determination of the constitution of Portland cement clinker by the metallographic method 64
Taylor, N. W., on Coal consumption of lime kilns 58
Torgerson, R. S., on Improvements in cooling clinker 42
Torgerson, R. S., and B. Nordberg on Plant development in the United States 75
Torres, Ary F., on Cement testing in Brazil ... 156
Tyler, P. M., on Decrease in fuel consumption in cement manufacture 89

Bond between steel and concrete, The causes of the, by Dr. B. Pogany 99
Bowl classifiers in conjunction with slurry thickeners 184
Brazil, Cement testing in 156
Bricks for lining cement kilns, Magnesia 223
Cement and lime, Research on 139
" in practice, "Low-heat" 198
Cements and limes submitted to high pressures, Properties of, by Dr. F. Jager 1
" Special, by C. R. Platzmann 163
" Special Portland, by G. A. Ashkenazi ... 91
" which are not seriously affected by large additions of water, Portland 115
Classifiers in conjunction with slurry thickeners, Bowl 184
Clinker by the metallographic method, Determination of the constitution of Portland cement, by Taro Tanaka and Ryuichi Naito ... 64
" Composition of Portland cement and heat of solution of 170
" Constitution of Portland cement, by R. H. Bogue 205, 230, 250
" Controlling the quality of, by J. H. Jennings 47
" cooling, Economy of 201
" grinding, Improvements in 173, 228
" Improvements in cooling 42
Coal consumption of lime kilns 58
Combustion in the rotary kiln, Control of 79
Composition of Portland cement and heat of solution of clinker 170
Concrete, Extracting surplus water from 130
Constitution of Portland cement clinker, by R. H. Bogue 205, 230, 250
" of Portland cement clinker by the metallographic method, Determination of the, by T. Tanaka and R. Naito 64

SEATTLE, WASH.
FEB 20 1940

Contraction, Testing cement mortars for 59
Cooling clinker, Improvements in 42
„ Economy in clinker 201
Crushing strength of cement 4
Developments during the year 1938 56
Drying-out of cement, Shrinkage and, by H. E. Schwiete and H. Zur Straszen 23
Electric plant, The care of 181
Filters, Notes on slurry 179
Fineness of cement, The 150
„ of cement, The Wagner turbidimeter for measuring the 187, 214
Fuel consumption in cement manufacture, Decrease in 89
„ consumption of rotary lime kilns ... 7, 133
„ economy, Progress in 137
Gas temperature, Measurement of 106
German standard specifications for Portland, slag, and blast-furnace cements, Revision of the ... 248
Grinding, Economies in fine 159
„ Improvements in clinker 173, 228
„ media, Efficiency of 77
Heat of solution of clinker, Composition of Portland cement and 170
Hydro-ferrites of lime 53
Initial set of cement, Placing concrete after the ... 5
Iron and steel in the cement industry 69
Kiln and the Lepol kiln, Temperatures and changes of material in the rotary 103
„ Control of combustion in the rotary 79
Kiln-feed plant, A modern 54
Kilns, Coal consumption of lime 58
„ Fuel consumption of rotary lime ... 7, 133
„ Magnesia bricks for lining cement 223
„ Refractories for cement, by H. G. Fisk ... 257
Lepol kiln, Temperatures and changes of material in the rotary kiln and the 103
Lime, Hydro-ferrites of 53
„ kilns, Coal consumption of 58
„ kilns, Fuel consumption of rotary ... 7, 133
„ Research on cement and 139
Limes submitted to high pressures, Properties of cements and, by F. Jager 1
Lining cement kilns, Magnesia bricks for 223
" Low-heat " cement in practice 198
Magnesia bricks for lining cement kilns 223
Metallographic method, Determination of the constitution of Portland cement clinker by the, by T. Tanaka and R. Naito 64
Mill drive, Selecting a motor for cement 20
Minerals in cement manufacture, Separation of 37, 83
Mortars for contraction, Testing cement 59
Motor for cement mill drive, Selecting a 20
Motors, Enclosures for industrial 21
Oil wells, Cement for sealing 148
